

1. Overall concept / 总体概念

Bilingual A3 booklet | substantial Chinese–English counterpart | DATA • JZ

PROVISIONAL / 临时概念

PROVISIONAL / 概念模型: not an approved plan, statutory control, engineering, procurement or investment document

Service centre → test field → literacy hall: a public data-service loop with human fallback.

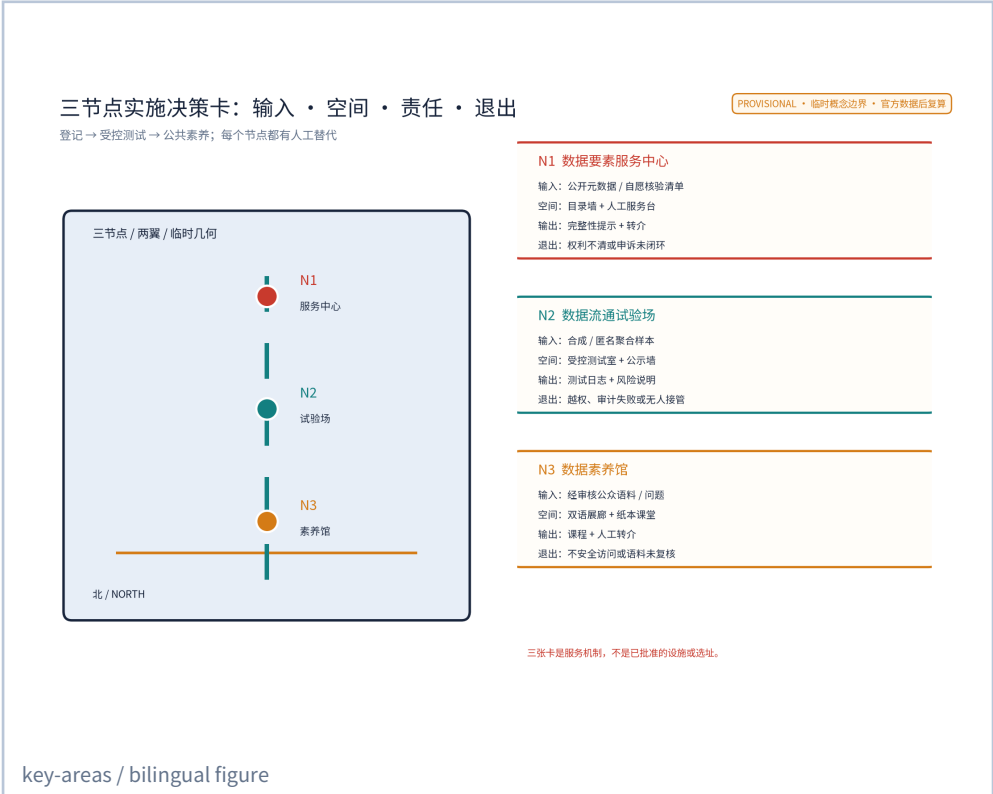

2. Node decisions / 节点决策

Bilingual A3 booklet | substantial Chinese–English counterpart | DATA • JZ

PROVISIONAL / 临时概念

PROVISIONAL / 概念模型：not an approved plan, statutory control, engineering, procurement or investment document

Each node has a defined input, spatial touchpoint, output, human responsibility and exit condition.

English evidence

N1 registers and refers; N2 tests synthetic or aggregate samples; N3 teaches and routes questions. A rights or audit failure stops the flow.

中文对照与边界

N1负责登记与转介；N2使用合成或匿名聚合样本测试；N3负责教学与问题转介。权利或审计失败即停止流程。

Rights / confidence: self-drawn figures; independent sources and permitted/prohibited uses are recorded in sources.json. Official geometry, approvals, ownership, safety, capacity, clinical validity and operating resources remain provisional or unknown.

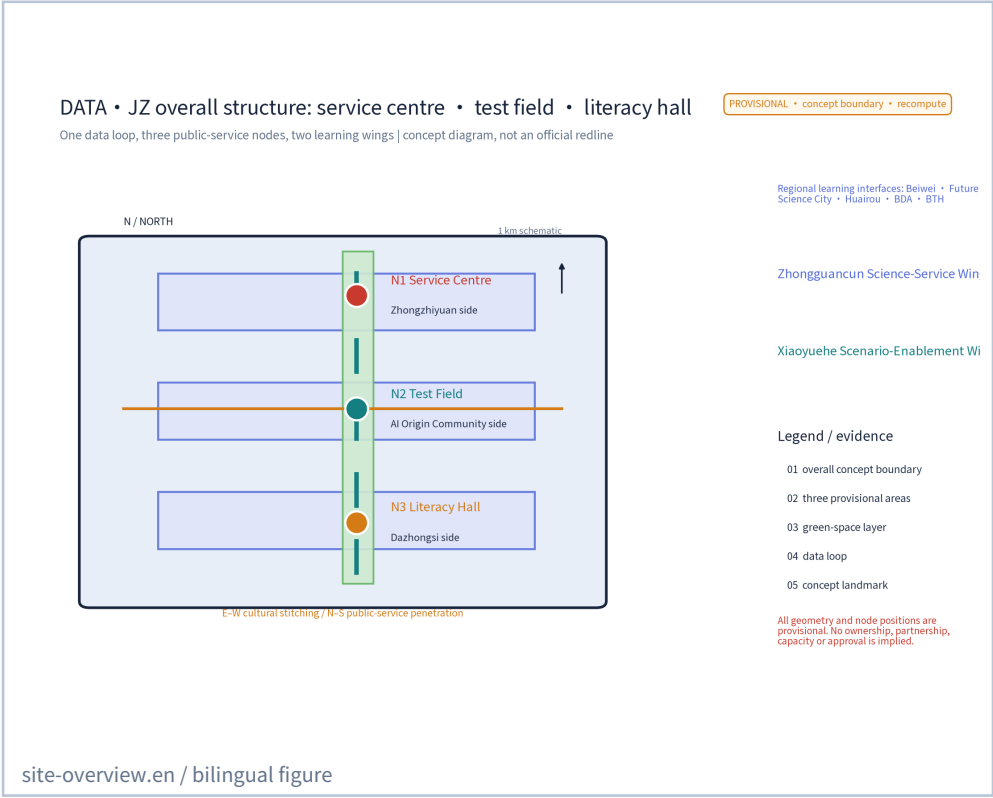

3. Regional interfaces / 区域接口

Bilingual A3 booklet | substantial Chinese–English counterpart | DATA • JZ

PROVISIONAL / 临时概念

PROVISIONAL / 概念模型： not an approved plan, statutory control, engineering, procurement or investment document

Three areas and two wings connect to learning interfaces, not assumed partnerships.

English evidence

Beiwei, Future Science City, Huairou Science City, E-town and the Beijing–Tianjin–Hebei interface are exchange directions only. No tenant, supplier, venue, funding or cooperation is promised.

中文对照与边界

北纬社区、未来科学城、怀柔科学城、经开区和京津冀均为学习接口方向，不是既成合作；不承诺入驻、供应商、场地、资金或合作。

Rights / confidence: self-drawn figures; independent sources and permitted/prohibited uses are recorded in sources.json. Official geometry, approvals, ownership, safety, capacity, clinical validity and operating resources remain provisional or unknown.

4. Spatial compatibility / 空间兼容

PROVISIONAL / 临时概念

PROVISIONAL / 概念模型： not an approved plan, statutory control, engineering, procurement or investment document

Reuse first: public service, blue-green movement, culture and interfaces are separated from formal unknowns.

English evidence

The broad concept layer must not be read as a statutory land-use ratio. FAR, height, capacity, ownership and investment remain UNKNOWN / NULL until official controls arrive.

中文对照与边界

宽口径概念层不应被读作法定用地比例。官方控制条件到位前，容积率、高度、容量、权属和投资均为 UNKNOWN / NULL。

Rights / confidence: self-drawn figures; independent sources and permitted/prohibited uses are recorded in sources.json. Official geometry, approvals, ownership, safety, capacity, clinical validity and operating resources remain provisional or unknown.

5. Evidence and audit / 证据与审计

PROVISIONAL / 概念模型： not an approved plan, statutory control, engineering, procurement or investment document

Formal ratios, operating counts and the boundary ledger are deliberately separated.

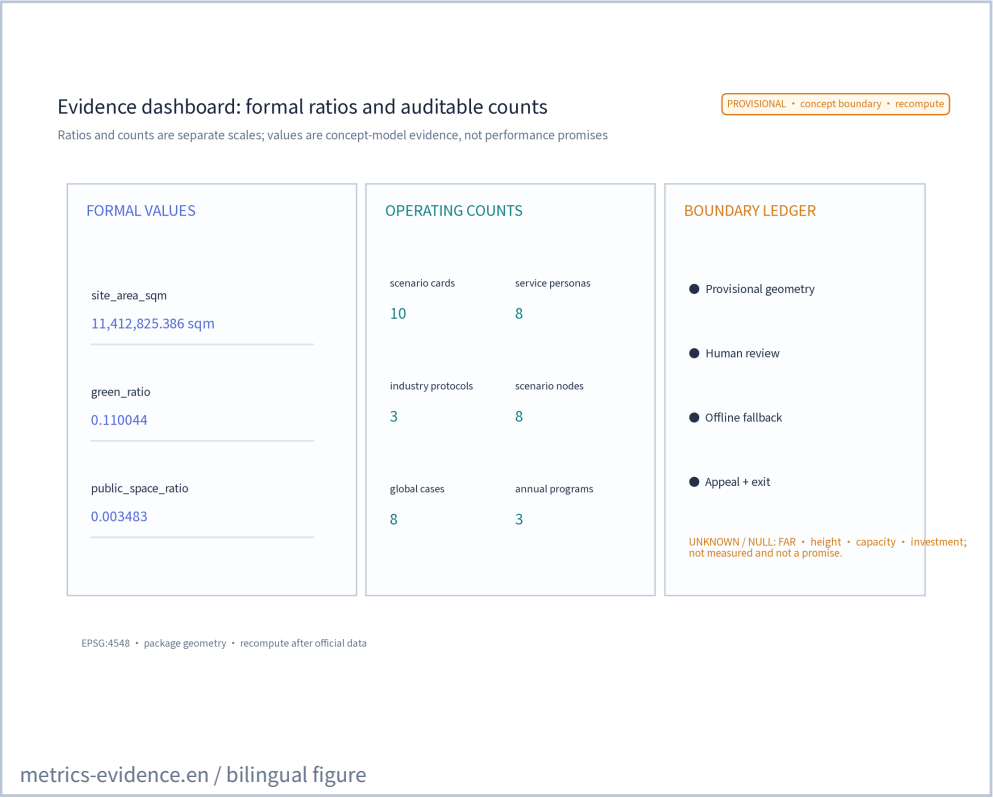

6. Operations and rights / 运营与权利

PROVISIONAL / 临时概念

PROVISIONAL / 概念模型： not an approved plan, statutory control, engineering, procurement or investment document

Open operations, developer participation, human review and public appeal keep the concept reversible.

English evidence

Eight ecosystem elements, eight user groups, ten scenario cards, three industry protocols, RACI, KPI, developer clinics, synthetic-data interfaces and annual public review are documented in the proposal. Health-related data is not stored by default.

中文对照与边界

方案记录八要素生态、八类用户、十张场景卡、三项产业测试、RACI、KPI、开发者门诊、合成数据接口和年度公示复盘；健康相关数据默认不存储。

Rights / confidence: self-drawn figures; independent sources and permitted/prohibited uses are recorded in sources.json. Official geometry, approvals, ownership, safety, capacity, clinical validity and operating resources remain provisional or unknown.
