

JINGZHANG AI INNOVATION

Conceptual sub-scopes: research ~43.6 km² / overall design ~11.4 km² / key areas ~368.4 ha

EVENT CORRIDOR (RELAY • JZ)

Global AI Event System & Long-Term Operation (Concept)

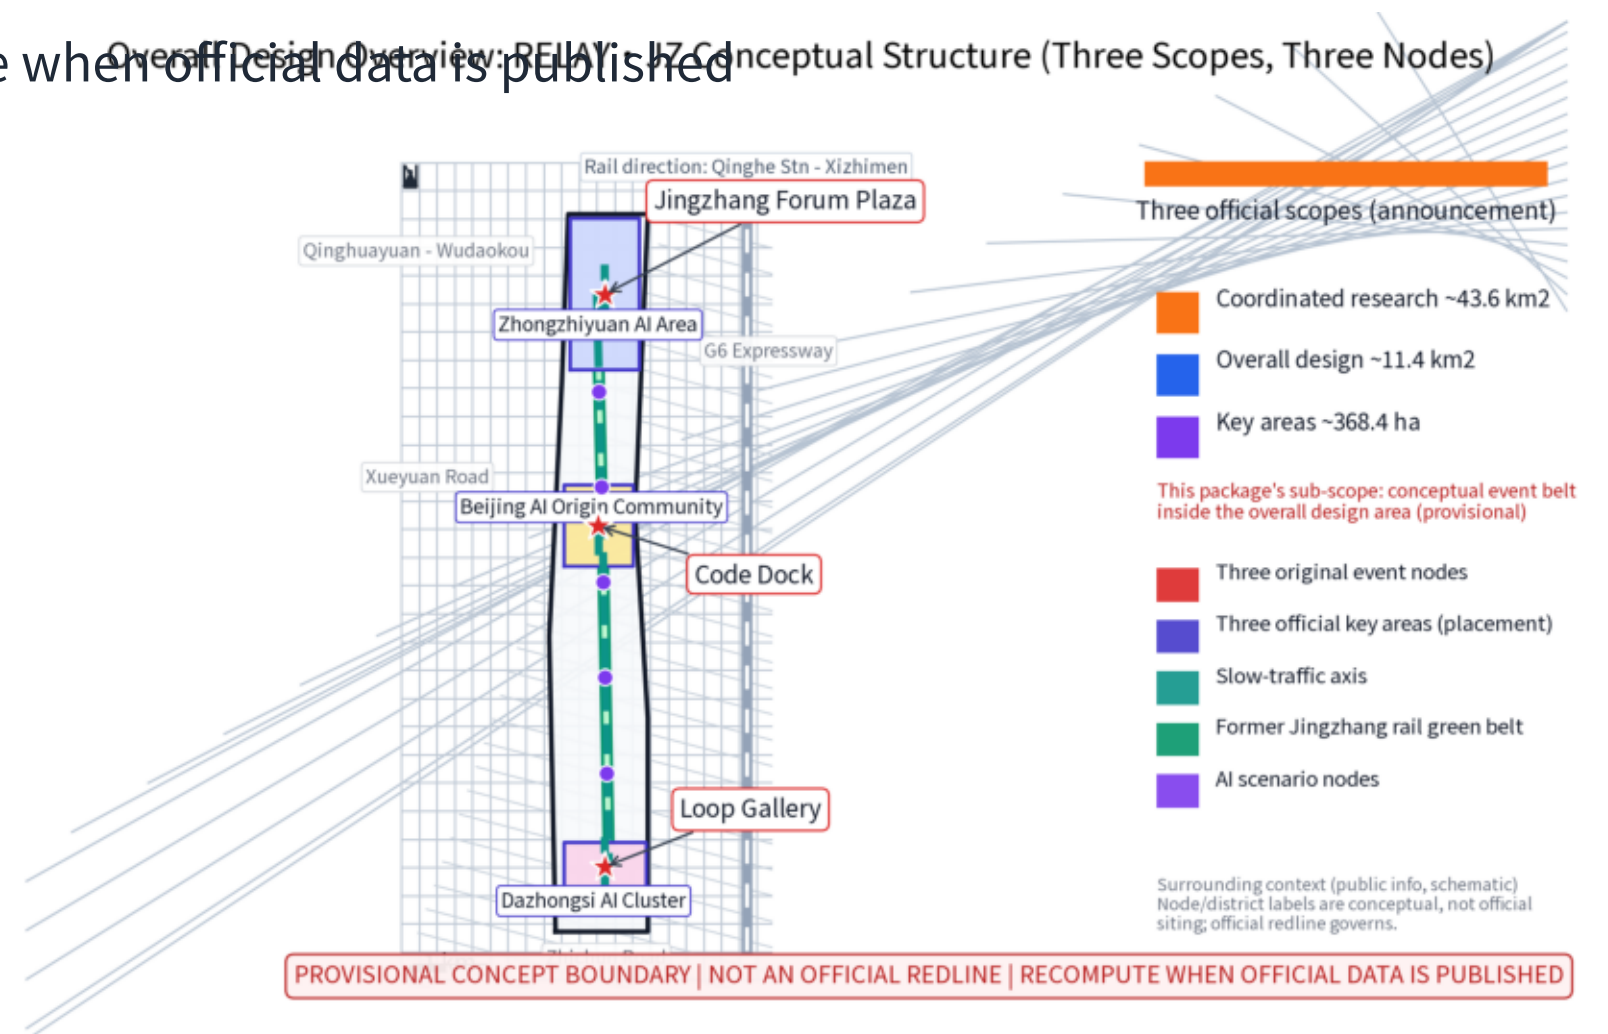

- One bed, three platforms: Forum Plaza, Code Dock, Loop Gallery (original nodes)
- Five AI+ scenario groups, 12 scenario cards, three test-verification pilots
- Annual programme system (3 brands) and developer-community long-term conversion
- All concept advice and reference proposals; no approval, investment or implementation commitment

PROVISIONAL BOUNDARY - NOT AN OFFICIAL REDLINE - RECOMPUTE ON OFFICIAL DATA

CONCEPT ONLY - NOT APPROVAL BASIS - RECOMPUTE ON OFFICIAL DATA

1 Three Scopes & Overall Design

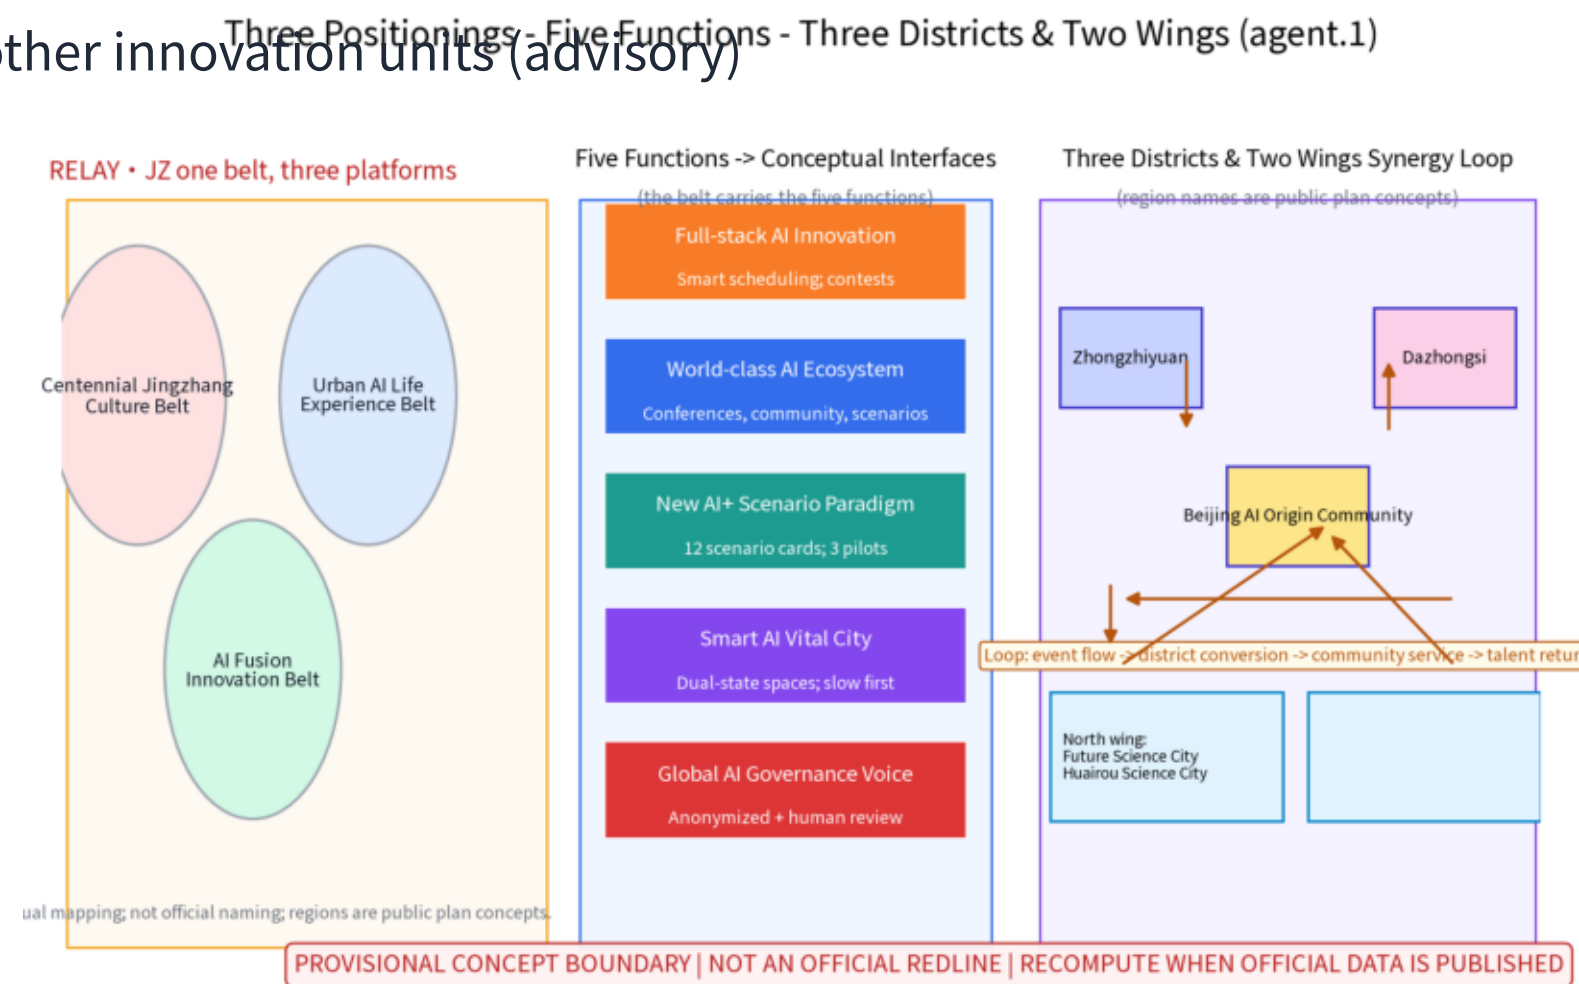

- Research ~43.6 km² / overall design ~11.4 km² / key areas ~368.4 ha (official wording)
- This package: conceptual sub-scope (provisional) with road and rail context
- Green belt as skeleton, slow-traffic first; recompute when official data is published

PROVISIONAL BOUNDARY - NOT AN OFFICIAL REDLINE - RECOMPUTE ON OFFICIAL DATA

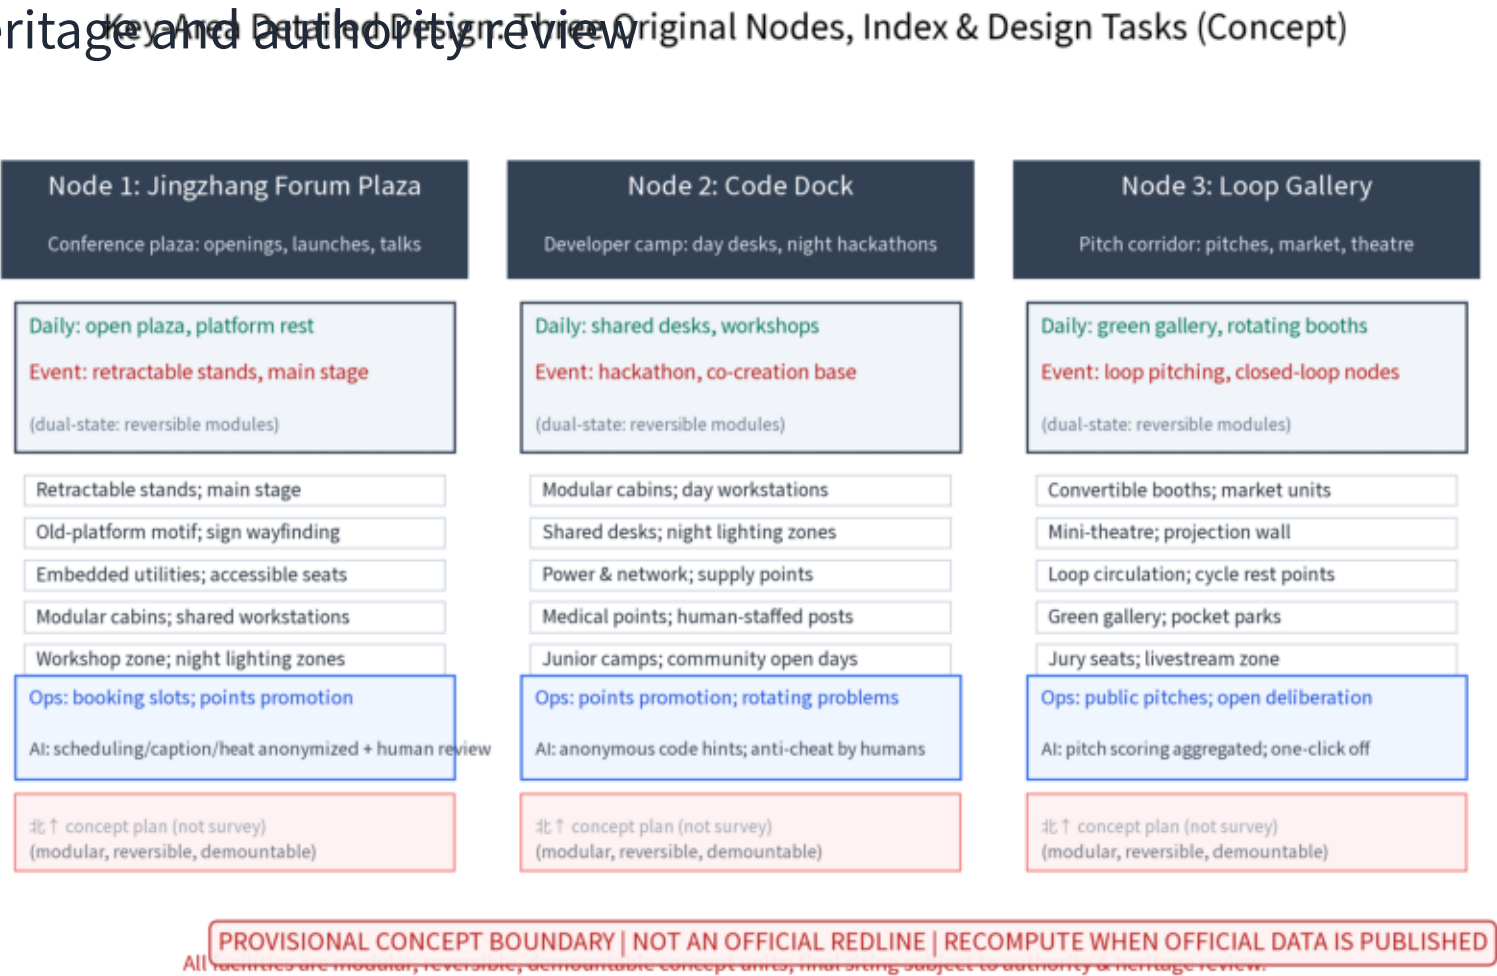

2 Three Districts & Two Wings Synergy Loop

- Three positionings: culture / experience / fusion belts; five functions: innovation, ecosystem, scenarios, vitality, governance
- Three districts: Zhongzhiyuan, AI Origin Community, Dazhongsi; wings: Future/Huairou north, E-Town/Jing-Jin-Ji south
- Concept interfaces to the Beiwei Community and other innovation units (advisory)

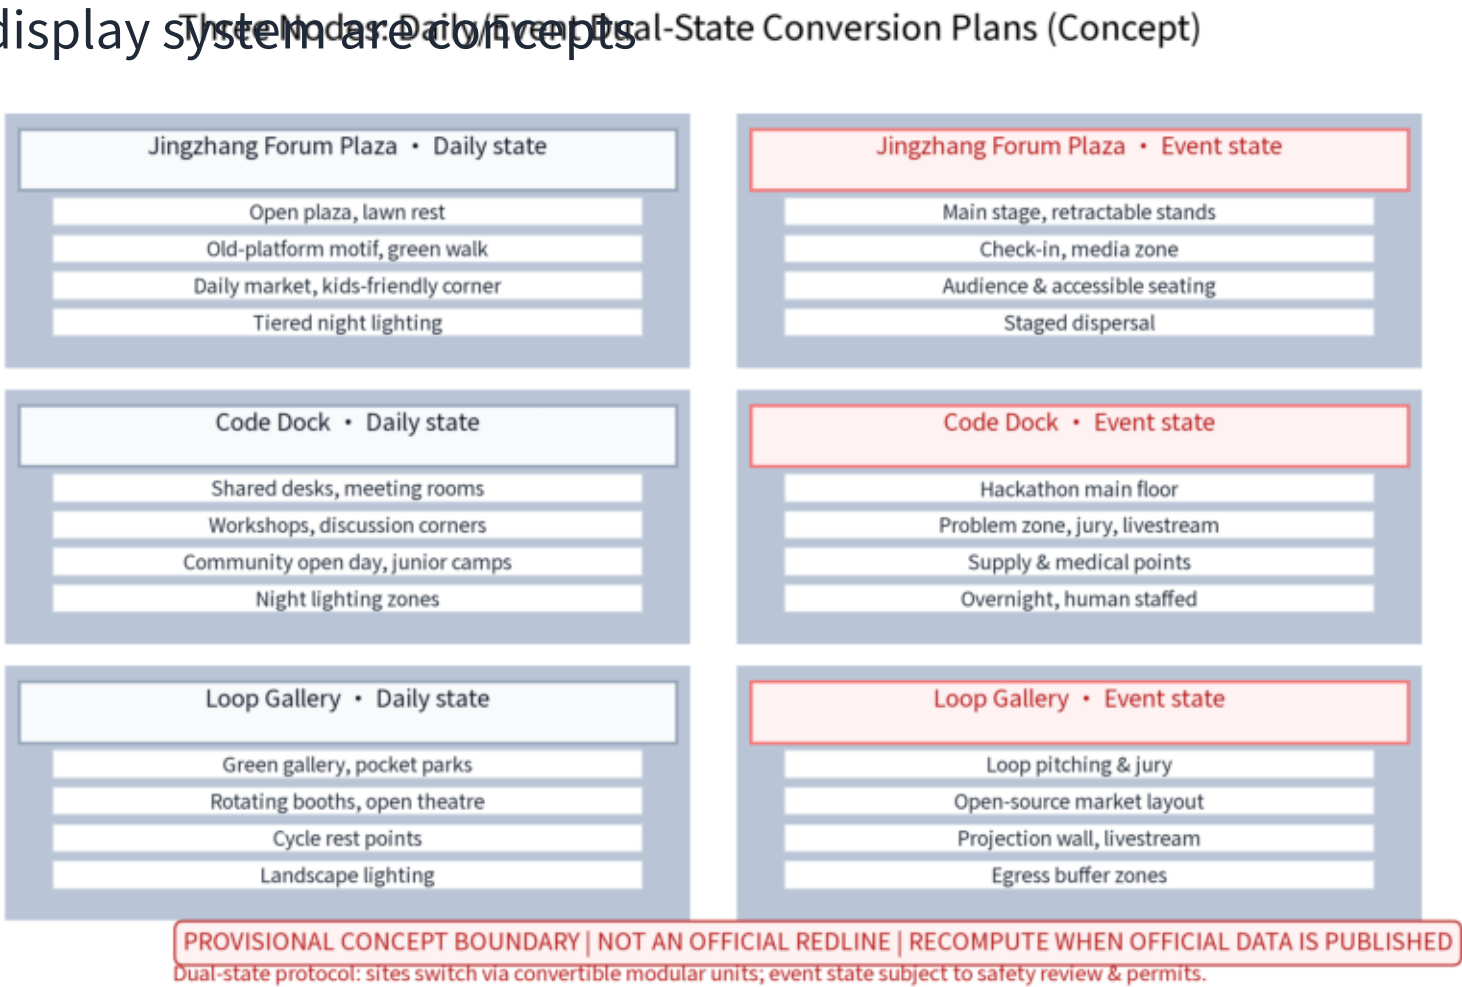

3 Three-Node Detailed Design

- Jingzhang Forum Plaza: openings, launches, talks; Code Dock: day desks, night hackathons (modular)
- Loop Gallery: pitches, open-source market, mini theatre
- Facility siting is conceptual; re-sited after planning, heritage and authority review

4 Daily / Event Dual-State Conversion

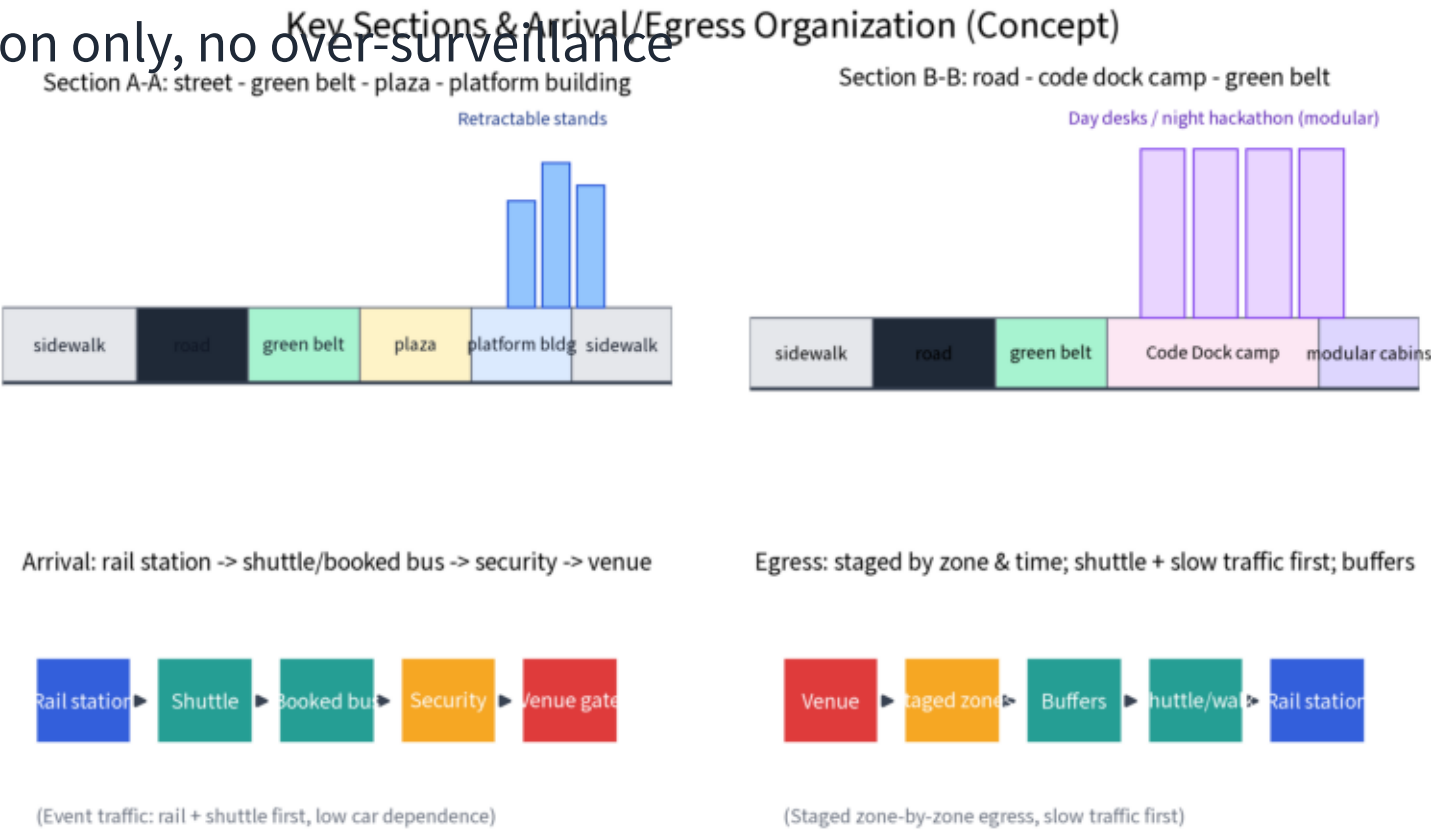

- Same sites switch via convertible units: leisure by day, events by day-and-night
- Modular, reversible, demountable; event state subject to safety review and approval
- Public-space component library and Jingzhang Honor display system are concepts

5 Arrival, Egress & Key Sections

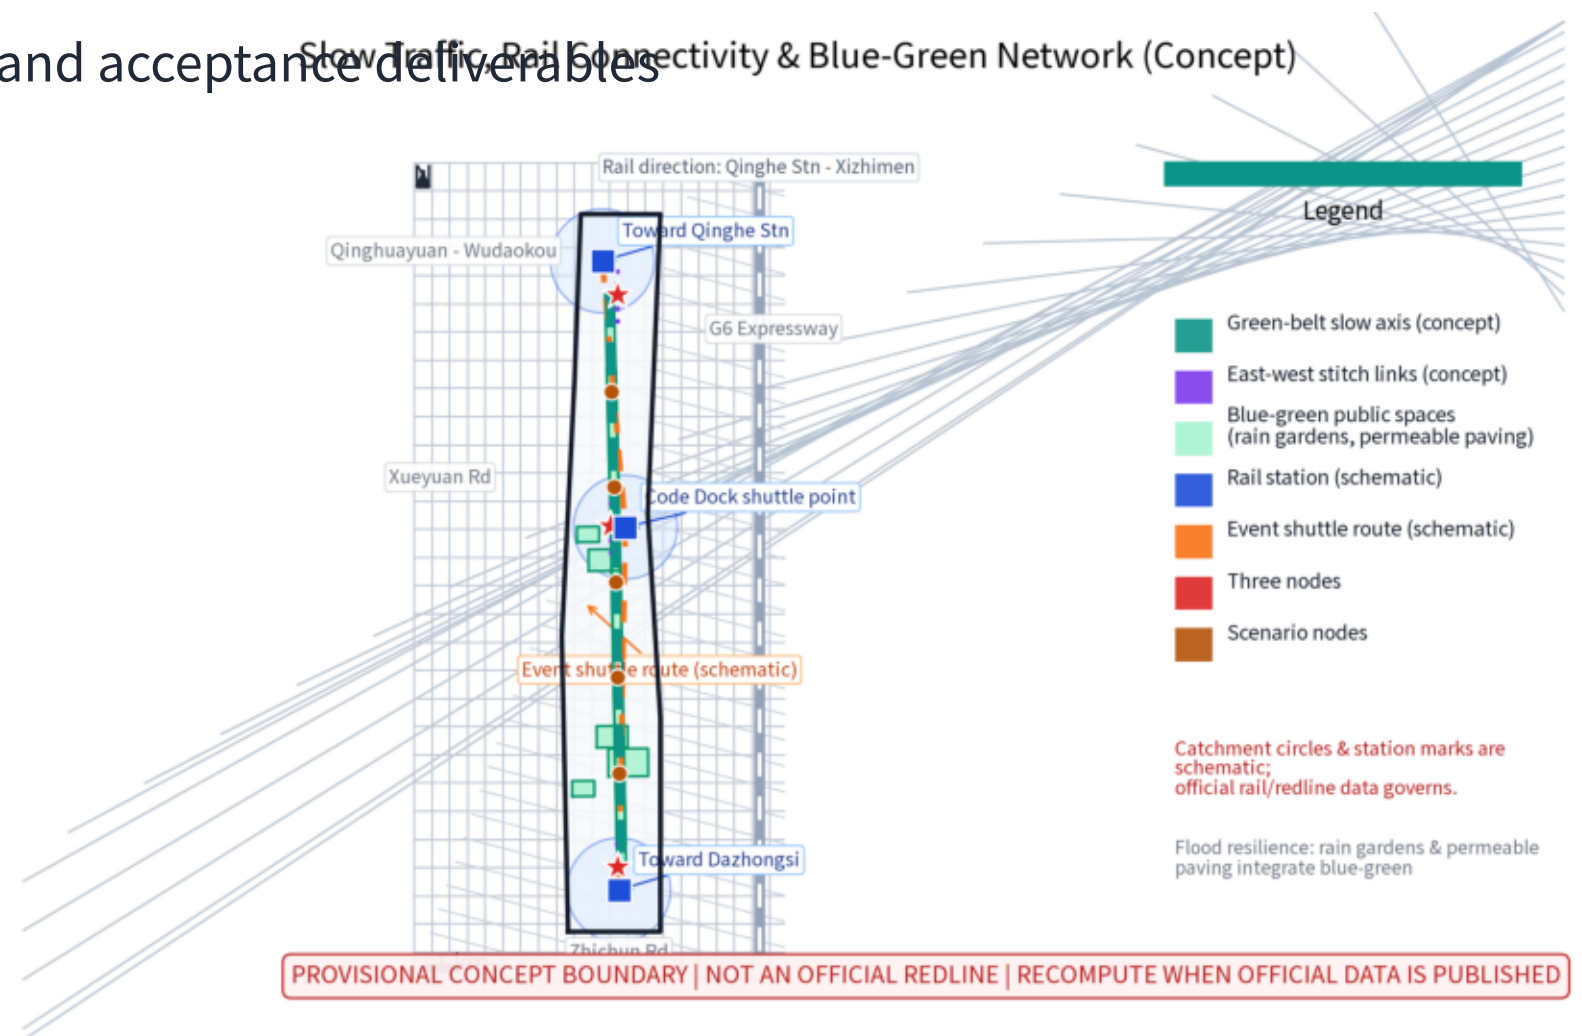

- Arrival: rail station -> shuttle -> security -> venue; staged, buffered egress
- Accessible multimodal wayfinding with human backstop; tiered night lighting and patrols

- Key decisions human-reviewed; anonymized aggregation only, no over-surveillance

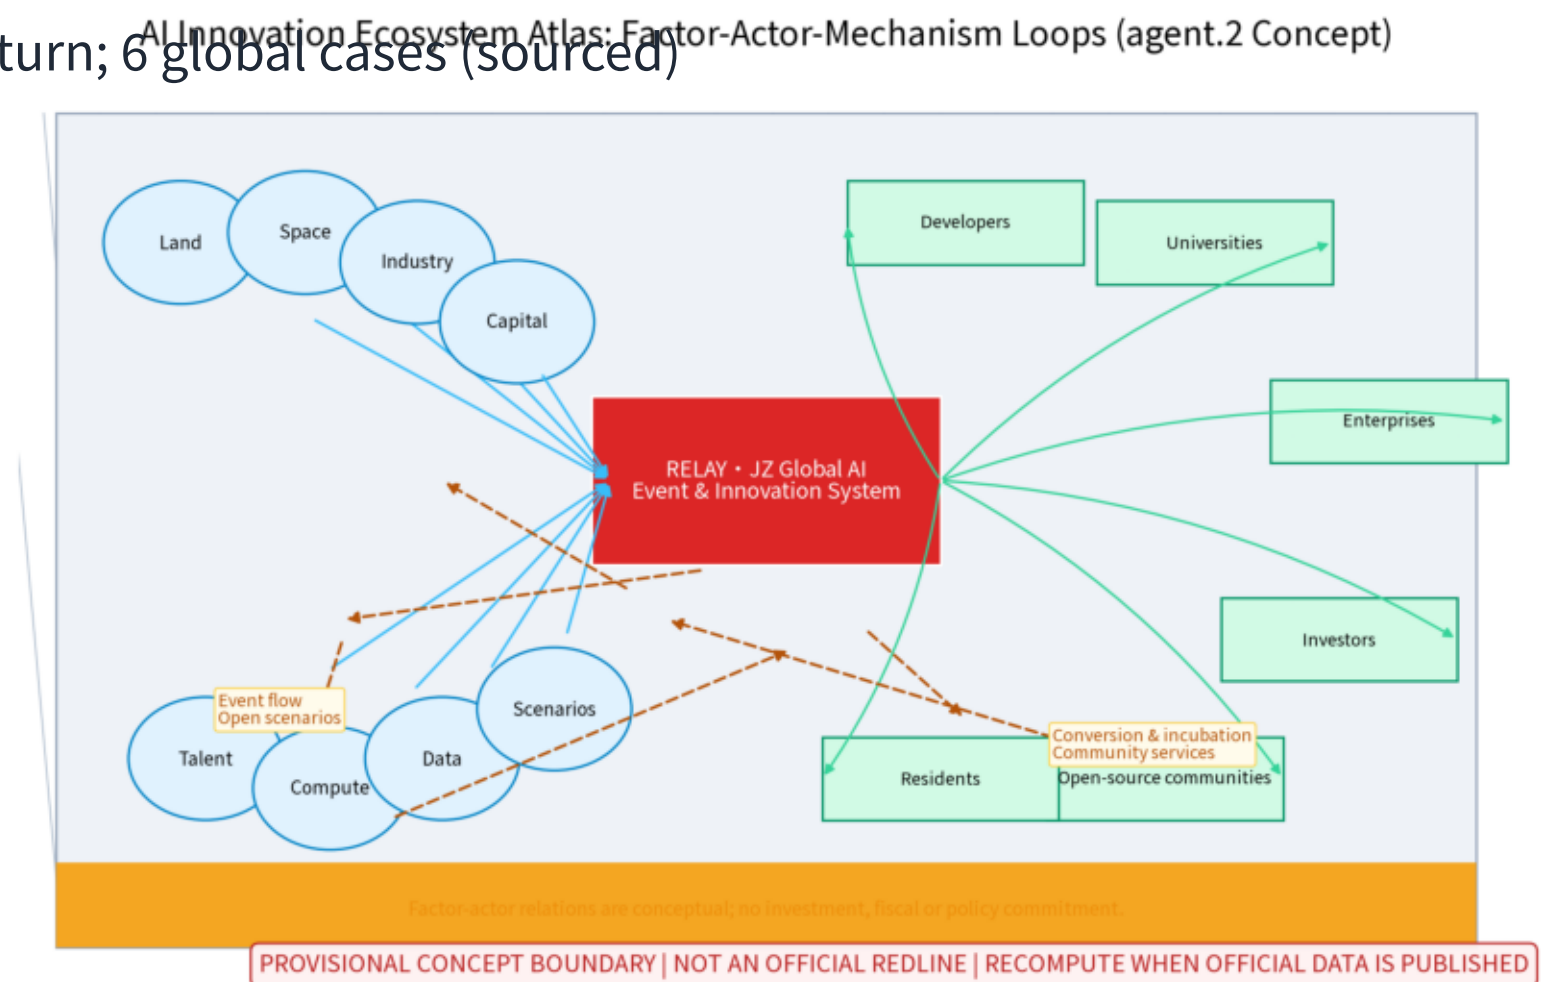

6 Slow Traffic, Rail Links, Blue-Green

- Continuous slow axis (north-south spine) with east-west stitch links (concept)
- Rail catchment circles (schematic) and booked shuttles; rain gardens, permeable paving
- Accessibility checklist enters node detailed design and acceptance deliverables

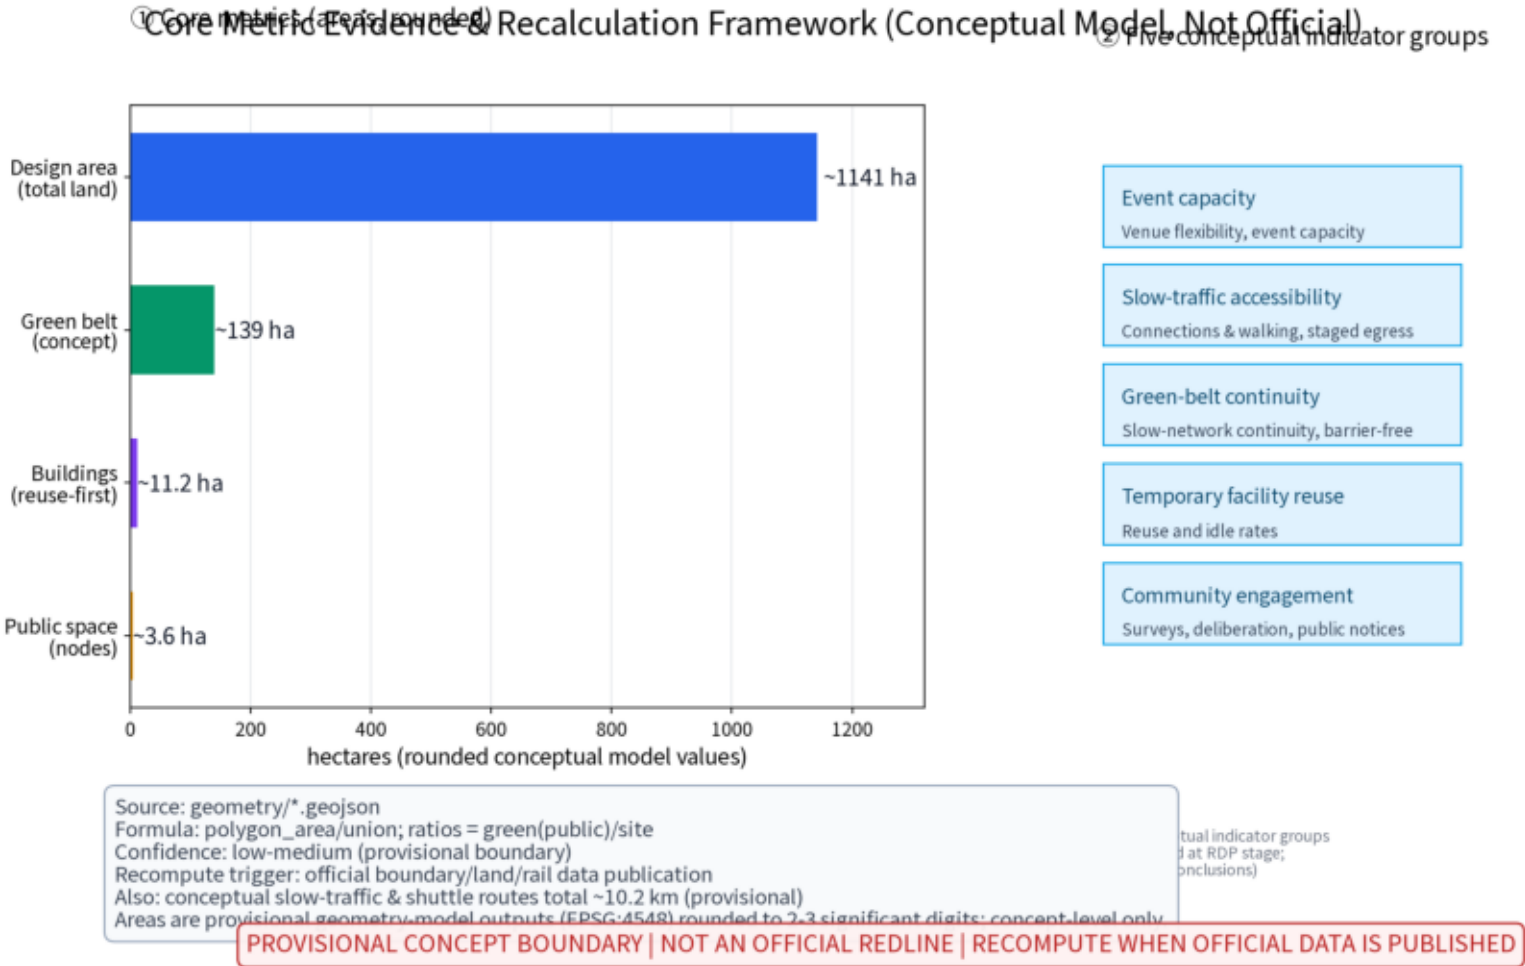

7 AI Innovation Ecosystem Atlas

- Eight factors: land, space, industry, capital, talent, compute, data, scenarios
- Six actors: developers, universities, enterprises, investors, OSS communities, residents
- Mechanism loops: flow -> conversion -> service -> return; 6 global cases (sourced)

8 Metrics, Recompute & Compliance

- Rounded areas/ratios with source, formula, confidence, recompute trigger (provisional)
- Compliance matrix covers 23 tasks; AI governance: anonymized aggregation, human review, no over-surveillance
- Risks and data gaps in risk.json / assumptions.json

PROVISIONAL BOUNDARY - NOT AN OFFICIAL REDLINE - RECOMPUTE ON OFFICIAL DATA
