

## DATA • JZ overall structure: loop, nodes and wing interfaces

One walk-and-cycle-first loop • three public-service nodes • three concept landmarks  
Regional learning interfaces: Beiwei • Future Science City • Huairou • BDA • BTH

## Three node decision cards: input • space • responsibility • exit

Registration → controlled testing → public literacy; every node has a human fallback

## Evidence dashboard: formal ratios and auditable counts

Ratios and counts are separate scales; values are concept-model evidence, not performance promises

Land-use reading and formal geometry ratio

Broad concept layer is not the strict green\_ratio; all geometry remains provisional

## Mobility, blue-green and public-realm layers

Memory trail • greenbelt • DATA • JZ loop; conceptual path, not an engineering alignment

PROVISIONAL • concept boundary • recompute

## Eight public mechanism cases → eight ecosystem elements

Comparison directions only; no partnership, endorsement, scale or local performance is claimed

PROVISIONAL • concept boundary • recompute

### 8 TRACEABLE PUBLIC CASES

|                                                                                        |
|----------------------------------------------------------------------------------------|
| 01 Beijing CBEX                                                                        |
| 02 Shanghai Data Exchange                                                              |

## DATA • JZ identity direction and use boundaries

An internal concept mark: orbit + node; no third-party trademark is embedded

PROVISIONAL • concept boundary • recompute

DATA • JZ  
数据要素智环

### Graphic grammar

orbit = continuous public loop  
node = service / test / literacy

N1 Service Centre • 服务中心

N2 Test Field • 试验场

N3 Literacy Hall • 素养馆

### Color roles

blue-green: public space  
orange: risk / provisional only

### USE BOUNDARY

internal concept • no endorsement  
Noto Sans SC embedded

## Three concept landmarks and an auditable honor display

Record public contribution and compliance practice; never a commercial ranking or approval

PROVISIONAL • concept boundary • recompute

Honor = evidence of research / community contribution / compliance practice; no rank, trademark or approval.
